DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. The claims are generally narrative and indefinite, failing to conform to current U.S. practice, and appear to be a literal translation into English from a foreign document. The examiner requests amending the claims to eliminate the term "characterized".
4. Regarding claims 1-3, and 8, respectively, the word "means" is preceded by the word(s) "first, second,... sixth" in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967).
5. A claim, or claims, which fail(s) to comply with the first and/or second paragraph of 35 USC 112, will not be analyzed as to whether it is patentable over the prior art since to do so would of necessity require speculation with regard to the metes and bounds of the claimed subject matter.

Conclusion

6. The prior art made of record and not relied upon is cited of interest as being

pertinent to applicant's disclosure.
